

With over 15 years experience, Batyline® tensioned ceilings represent the essential innovative technical solution that guarantees long-term structural durability. Light and flexible, they adapt to spatial geometry, dimensions and style. They are particularly strong and meet all the implementation constraints governing large complex surfaces.

ADVANTAGES

- Aesthetics of materials and light effects,
- Acoustic performance,
- Tensioned ceilings suitable for damp atmospheres,
- Rapid installation and easy maintenance,
- Compliance with public area smoke extraction regulations,
- Warranty and safety,
- Sustainable development.

→ Recommended textiles for tensioned ceiling applications

- Batyline® HM Classic • Batyline® HM Tweed • Batyline® XP5 • Batyline® Mesh
- Batyline® SK 300 & SK 300 Low E
