

Specifiers are keen to select Batyline® composite textiles for wall applications because of their aesthetic, safety, lightness, flexibility and acoustic absorption characteristics.

## ADVANTAGES

- Material aesthetics and extensive colour range,
- Durability,
- Acoustic performance,
- Easy installation,
- Warranty and safety,
- Sustainable development.

### → Recommended textiles for wall covering applications

- Batyline® HM Classic • Batyline® HM Tweed • Batyline® Canatex
- Batyline® Mesh

- The Ferrari® Group supports professionals: specialists install fabricators, specifiers, distributors, and makes available to its partners the company's experience, knowledge and photographic library of projects unique worldwide in terms of international references. You can access all this information by opening an account in the limited access area.
- If you have a project and would like support or simply information from the Ferrari® specification department, then don't hesitate to complete our "Professional access" form on the Ferrari® website.
